
Table of Contents

Executive Summary
Table of Contents

	Page
1.0 Introduction.....	1
1.1 Project Team.....	1
1.2 Study Overview	2
1.3 Background of Study Area	4
2.0 Purpose and Need	7
2.1 Increasing Traffic Congestion	7
2.2 Safety Concerns	9
2.3 Facility Deficiencies	10
2.4 Insufficient Multi-modal Accommodations.....	10
2.5 Changing Land Use/Transportation Needs.....	11
3.0 Environmental Scan	12
4.0 Multi-modal Facilities	13
4.1 Transit Facilities	13
4.1.1 La Crosse Municipal Transit Utility	13
4.1.2 Proposed Regional Bus Service.....	15
4.1.3 Intercity Bus Service.....	15
4.1.4 Elderly and Disabled Transportation Service Providers	16
4.2 Bike Facilities	16
4.2.1 Multi-Use Trails	16
4.2.2 Proposed Multi-Use Trails	16
4.2.3 Bicycle Routes and Facilities.....	17
4.3 Existing Pedestrian Facilities	17
4.3.1 South Avenue/Mormon Coulee Road Segment (Segment A).....	17
4.3.2 WIS 35 Segment (Segment B).....	19
4.3.3 US 14/61 Segment (Segment C).....	20
5.0 Land Use & Transportation Plans/Zoning/Ordinances	21
5.1 Existing Plans and Ordinances	21
6.0 Input and Coordination	23
6.1 Surveys	23
6.1.1 Telephone Survey	23
6.1.2 Local Business Survey.....	24
6.1.3 Multi-modal Corridor Field Guide	24
6.2 Agency Coordination.....	24
7.0 Analysis of Geometric Deficiencies.....	25
7.1 Horizontal Alignment.....	25

Table of Contents (Continued)

7.2	Vertical Alignment/Stopping Sight Distance (SSD)	25
7.3	Cross Section.....	26
7.3.1	Long Truck Route.....	26
7.3.2	Curb Offset.....	27
7.3.3	Two-Way-Left-Turn-Lane Segment.....	27
7.3.4	Cross Slope.....	27
7.3.5	Lateral Clearance	28
7.4	Intersection Layout.....	28
7.5	Structures and Barriers	30
7.5.1	Structures	30
7.5.2	Barriers.....	30
8.0	Traffic Analysis	31
8.1	Existing Traffic Conditions	31
8.1.1	Traffic Volumes & Conditions	32
8.1.2	Percent Trucks	32
8.1.3	Crash Analysis	32
8.2	Traffic Forecasts	33
8.3	Analysis Methodology	35
8.4	Corridor Access Inventory.....	36
8.5	WIS 35 and US 14/61 Rural Segments	37
9.0	Alternatives Development.....	39
9.1	Mainline Alternatives Analysis Level 1	39
9.1.1	Level 1 Eliminated Alternatives	39
9.1.1.1	Three-lane Two-Way-Left-Turn-Lane (TWLTL)	40
9.1.1.2	Six-lane Divided Facility	40
9.2	Mainline Alternatives Analysis Level 2	40
10.0	Strategies and Recommendations	43
10.1	Mainline Strategies and Recommendations	43
10.1.1	Short-term Strategies and Recommendations	43
10.1.2	Long-term Strategies and Recommendations.....	43
10.1.2.1	No-build Alternative.....	43
10.1.2.2	Four-lane Variable Width Median	44
10.1.2.3	Five-lane Two-Way-Left-Turn-Lane (TWLTL)	47
10.1.2.4	Hybrid Alternative.....	49
10.2	Intersection Strategies and Recommendations	51
10.2.1	Short-term Strategies and Recommendations	51
10.2.2	Long-term Strategies and Recommendations.....	52
10.2.2.1	Mainline Intersection Options.....	52
10.2.2.2	US 14/61/WIS 35 Intersection Alternatives	53
10.2.2.3	Signalized US 14/61/WIS 35 Intersection	55

Table of Contents (Continued)

10.2.2.4	Roundabouts at US 14/61/WIS 35 and 33 rd Street	58
10.2.2.5	Roundabout at US 14/61/WIS 35 Intersection and Right-in/Right-out at 33 rd Street Intersection	60
10.2.2.6	Roundabout at US 14/61/WIS 35 Intersection and Signalized/Unsignalized 33 rd Street Intersection.....	62
10.2.2.7	Interchange at US 14/61/WIS 35 Intersection and Right-in/Right-out at 33 rd Street Intersection	64
10.2.2.8	Modify Existing US 14/61/WIS 35 Intersection with Southbound to Eastbound Free-flow Ramp and Right-in/Right-out or Unsignalized 33 rd Street Intersection	66
10.2.2.9	Grade-Separated Roundabout at US 14/61/WIS 35 Intersection	66
10.3	Multimodal Strategies and Recommendations.....	68
10.4	Access Management Strategies and Recommendations	69
10.4.1	Driveway Consolidation.....	69
10.4.2	Driveway Elimination.....	70
10.4.3	Driveway Relocation.....	70
10.4.4	Local Circulation.....	70
10.4.5	Cross Access	72
10.4.5.1	Six-Leg Intersections	72
10.5	Urban Design Strategies and Recommendations	74
10.5.1	Urban Design and Corridor Aesthetics.....	74
10.5.2	US 14/61/WIS 35 Intersection Aesthetics	76
10.5.3	Implementation of Urban Design Elements.....	79
10.5.3.1	Community Sensitive Design (CSD) of WisDOT projects	79
10.5.3.2	Tax Increment Financing (TIF).....	79
10.5.3.3	Great River Road Designation	79
10.5.3.4	Comprehensive Planning	79
10.5.3.5	Overlay Zoning.....	80
10.5.3.6	Design Guidelines	80
10.5.3.7	Sign Ordinances	80
10.5.3.8	Transportation Equity Act (TEA-21) Funds	80
10.6	Regulatory Ordinance Strategies and Recommendations	81
10.7	Matrix of Strategies and Recommendations	81
11.0	Summary	86

List of Figures

- Figure 1 – Study Location Map
- Figure 2 – Existing Zoning Map
- Figure 3 – Current and Future Congestion – Urban Segment
- Figure 4 – Crash Types – Urban Segment
- Figure 5 – Multi-modal Accommodations
- Figure 6 – 2002 Average Annual Daily Traffic
- Figure 7 – 2030 Average Annual Daily Traffic
- Figure 8 – 2030 Peak Hour Volumes
- Figure 9 – Rural Segment Volumes
- Figure 10 – Level 2 Mainline Alternatives Matrix
- Figure 11 – Four-lane Variable Width Median Typical Section
- Figure 12 – Example of a Four-lane Variable Width Median
- Figure 13 – Five-lane TWLTL Typical Section
- Figure 14 – Example of a Five-lane TWLTL
- Figure 15 – Example of a Hybrid
- Figure 16 – US 14/61/WIS 35 Intersection Alternatives Matrix
- Figure 17 – Intersection Alternative 1
- Figure 18 – Intersection Alternative 2
- Figure 19 – Intersection Alternative 3
- Figure 20 – Intersection Alternative 4
- Figure 21 – Intersection Alternative 5
- Figure 22 – Intersection Alternative 6
- Figure 23 – Driveway Consolidation Example
- Figure 24 – Driveway Relocation Example
- Figure 25 – Local Circulation Example
- Figure 26 – Cross Access Example
- Figure 27 – Six-leg Intersections
- Figure 28 – Urban Design Issues and Opportunities
- Figure 29 – Example Roundabout with Gateway
- Figure 30 – Example Mormon Coulee Road Corridor

List of Appendices

- Appendix A Environmental Scan
- Appendix B CCRG Previously Recorded Archeological Sites
- Appendix C Hazardous Materials Sites
- Appendix D Telephone Survey Summary
- Appendix E Local Business Survey Summary
- Appendix F Intersection Turning Movement Count Data
- Appendix G Urban Segment Five-year Crash Analysis
